

Mayan Masks

L.O. To design and make a *Mayan* mask

Mayan Masks

- Mayan masks had a wide variety of uses, and the importance of the masks dictated how intricate the designs on various masks were. The most sacred Mayan masks featured complex and delicate mosaics made out of jade.
- Other materials used were stone, wood, gold, shell and obsidian (a hard, dark, glass-like volcanic rock)

Why were they used?

- The Maya used masks for a variety of reasons and occasions. These included:
- To adorn (decorate) the faces of the dead
- To be worn at important events
- To be worn during battle

Battle Masks

- Some masks which were simple in style were worn by the Mayans during important events like Battles, and usually carved from wood or stone.
- These designs focussed on the use of darker colours.
- They were worn for one of two reasons:
 - To protect the wearer during battle by adding spiritual power
 - To intimidate the enemy

Event Masks

- Other masks were designed to be worn during important events such as weddings and birth ceremonies. These masks often used heavenly beings, animals or designs for entertainment purposes.
- These masks used amazing designs with bright, vibrant colours painted onto wooden surfaces.

Death Masks

- Finally, those masks used to adorn the faces of the dead were often seen as the most sacred and therefore were the most elaborate.
- These masks used a mosaic patterning of the beautiful greens and blues of the Jade stone to show the close sacred connection between the people and their Gods.
- The funeral masks protected the individual while descending into the underworld "Xibalba" in order to defeat the gods of death and to be able to ascend as the Mayan "God of the Corn".

- When you are ready, you may begin.
